

Stone Pit

Metamorphosing materials, from primeval elements to today's concrete representation of style and natural elegance. The new **STONE PIT** collection by **Isla Tiles**, in porcelain stoneware, embodies the essence of nature in its most solid, well-defined interpretation – stone – turning it into an element of pure design.

STONE PIT is a tale told by several voices etched in rock, weathered by wind, rain and storms and caressed by the sun at the crack of dawn. This collection is based on multiple inspirations right from the start, with 4 different colourways – Wind, Rain, Thunder and Sunrise – to offer a choice that can interpret different tastes and aesthetic sensitivities.

The variety of sizes and special pieces also allows spaces, both residential and public, to be customized, to make them really unique.

Technology: full body porcelain stoneware

Colours: Rain | Sunrise | Thunder | Wind
